DESIGN HISTORY

Smart Course

Internship │ UI/UX Design

December 2021 - April 2022

- Leveraged a human-centered design process to deliver an intuitive user interface.
- Designed and tested high-fidelity mockups in Figma and then published the iterated pages onto Wix.
- Ensured KPIs are measured each week and processed these insights to improve Smart Course products.

AOM Trading

Web Developer │ Wordpress, CSS +HTML

August 2020 - November 2021

- Designed prototypes for a responsive teaching platform hosted on WordPress.
- Built pages to follow user journeys that support the goals, needs, and users of AOM Trading.

PROJECTS

Spell It

Designed and prototyped a mobile speech recognition app from scratch. Conducted thorough research, tested, iterated, and designed this app.

Narika.org

Redesigned Narika.org to help domestic violence survivors discover products, programs, and resources that are easy to find and support self-sufficiency.

Puppy Love

Designed and prototyped an app for pet owners to find nearby compatible playmates for their dogs.
